Spring!!!! Oh how welcome you are, it's so refreshing to see some new growth in the gardens and feel the warmth of the sun again. Vitamin D you have been missed, this is a very important nutrient to our bodies and so if you've been feeling a bit stuck and lethargic and have a can't be bothered attitude, it's not just you, it's highly likely that you're lacking in that essential Vitamin D. You can take this as a Multi Vitamin daily to give you a boost.

+++++

Spring Trends

“Hair”

Colours this season transport us to a happier, sunnier place where you can feel free to express a wittier version of your real self. Think **Snorkel Blue, Rose Quartz, Limpet Shell, Lilac Grey** ... who's keen? If that's not you, how about trying a Hacial?, which is one of our Couture Colours., Experience expertly placed shades of colour to give your style personality, never be like everyone else.!

“**Bob!**” The bob is your go-to cut this season, any length goes. Bring in your warm rose gold to soft caramels with ashen tones expertly placed to give your face shape and definition. **Contouring** is the new buzz word in hair colouring this season. For those warmer and busier days you will fall in love with this haircut that is decidedly low-maintenance and relies on nothing more than a spritz or two of our **EIMI texturizing spray**, paired with a choppy or softly swept fringe has this style ready for the season.

Pixie Cut – This cut is going nowhere fast. Slicked back, worn flat, tousled any which way, it is the perfect Haircut whether you have dark, light or rainbow hair, wear it funky or framing the face. Make your cheekbones pop by slicking back sides with messy texture in through the top teamed with a touch of *Jane Iredale blush* on your cheeks,

Boom girl! Gorgeous

Fringes are an instant style accessory, but with softer sweeping or choppy and untidy, there is a suitable fringe for almost everyone. The long Lob or just long textures with waves making hair move, so get out your tongs, get rid of your straighteners and start thinking bigger hair with movement.

Make-up,

This season we're seeing glossy luminous skin, and when it comes to choosing a foundation mineral is always best, even better when your SPF is in your foundation. You can choose if you want a cream or a powder depending on your skins requirements. **Jane Iredale mineral foundation** is a winner in our eyes and once you try it you'll never uses anything else! **SPF 20 or 25 we have you covered.** We'll help you colour match to your skin tone whether it be warm cool or neutral, you will always get the perfect result. So if your choice is dewy powder or a matt finish we have the foundation for you. Finish with our **Pommist** or **Balance** spray which helps set your minerals faster or just as a refreshing spritz when your skins feeling a little dehydrated. Best of all they smell divine.

On trend in your eyes a classic flick of the eyeliner, go heavier if you dare or do a double flick for added interest, and age doesn't matter. Just don't go too overboard or you'll make your eyes look small and hooded. Add tear drop eyes when you want to be dramatic, or use shine on your upper lid line in the colour of your choice. **Jane Iredale** has eyeshadows, pen eye liners, or jelly pots that do a multitude of things, the only limitation is your imagination. Want long eyelashes? Try **Jane Iredale's** range including their Longest Lash Thickening & Lengthening Mascara. It is hypoallergenic as is all of **Jane Iredale** collection so if you've struggled to find a mascara or eye liner that doesn't affect your eyes then give **Jane Iredale** a try.

Nails

Not forgetting your nails, we wish to introduce our new gel nail collection to add to our fabulous long lasting **Bio Sculpture range.** The latest innovation in long lasting gel nail you can now try their lasting **Evo 2 gel nail colour!** (Our new equivalent to what you have heard of as Shellac) **Evo** looks after your nail plate by still oxygenating the nail plate, allowing oxygen and water to still flow freely on the plate, thus resulting in your nail plate not being dehydrated when you remove the **Evo** product. Now that is unique!

Check out our colours below and see our Spring Special's where you can try **Evo** for the price of your normal manicure. **Why wouldn't you?????**

"Spring Nail Colour Treatment"

On the move Manicure or Pedicure colour is everything, treat your Fingers or Toes to this season's seductive colour range of Nail Polish or try **Evo** Gel Polish with no chipping guaranteed at no extra cost.

Spring Special from \$45.00 upgrade to an Immaculate which includes cuticle work for **\$65.00 - limited time only!**
